

PMMC provides organizations with the tools and the knowledge to maximize their net revenue

How do you help healthcare organizations navigate the biggest challenges in healthcare?

As a leader in the healthcare technology space, PMMC provides organizations with the tools and the knowledge to maximize their net revenue. Through the use of accurate data and insights, we work to ensure every organization has its needs met in an easily accessible format. PMMC brings together expertise, proven success and a dedicated team to guarantee that every client receives the assistance needed to make sure their performance is optimized every step of the way. From implementation to recurring account management, PMMC helps clients navigate daily

10+ years on the Short List

95% of respondents find the product easy to use

challenges. As your partner, PMMC is ready to approach your unique needs with a team of experts to not only ensure your success now, but in the future as well. Our top priority is helping clients so that they can focus on providing quality care to patients.

What advice would you offer to healthcare leaders when choosing among vendors?

Choosing partners is very important. When selecting a vendor, verify that you are working with vendors who have proven success. A vendor that helps you grow and succeed will be key to maximizing revenue. As a boutique business, PMMC tailors services to meet each client's needs every time. Be sure that your unique processes have solutions and aren't lost in a one-size-fits-all approach often taken by big businesses. At PMMC, our white-glove approach ensures that your success takes priority. Our dedicated teams focus on your specific goals, so you have time to focus on important

initiatives instead of getting lost in day-to-day issues. With a focused client success team, your organization is given the attention it deserves. PMMC prides itself on helping clients achieve success based on their individual measures.

What is some advice you can give providers for the successful implementation of a new product or service?

Good data is key to ensuring your implementation runs smoothly. With clean, accurate and complete data our team can implement well. If this is a concern for you or your IT team does not have the availability — don't worry! PMMC has proven resources that can assist you, so you start with good data to ensure a successful implementation and in turn, successful returns.

Our team will walk you through the implementation process and assist you every step of the way. PMMC helps you to start with a strong implementation and see real results in the bottom line. ■

PMMC provides high-value revenue cycle software and services to improve the financial performance of healthcare providers, so they have more resources to devote to patient care. PMMC enables revenue strategies for hospitals and health systems with the industry's most integrated and accurate revenue cycle management platform – helping hospitals identify denials and underpayments, negotiate better payer contracts, optimize charges, and increase price transparency. Clients see, on average, a 10 to 1 return on investment.
